SWORKz S35-4e EVO INSTRUCTION MANUAL

S35-4e EVO

1/8 Off Road Brushless Power Pro Buggy

INSTRUCTION

The S35-4e EVO is the design evolution from S35-4E Euros Champion.

Continue the successful SWORKz S35-4E 1/8 Electric Buggy platform, the new S35-4e EVO is designed for more higher level racing product.

The new geometry from European Champion Edition conversion kit provides optimized corner speed compared with more easy handling and maximum traction.

The S35-4e EVO features a T7075 hard anodized and lightened aluminum chassis with a new short wheel base design, that was tested for a long time by our factory pilots to guarantee the best speed balance for both front and rear suspensions.

The standard HET differentials are included and provide High Density Motor Pinion Gear system for options.

The new S35-4e EVO comes a brand new steering Lay-Down Type Steering Bellcrank servo savor system. With this new Ackerman design gives the driver the feeling of total control over the S35-4e EVO.

The SWORKz S35-4e EVO standard includes the Arched-Bridge-System and the higher capacity shock system. This is a big step for S35-4e EVO, the design made the car go faster and be more stable.

In the kit we include a special BBS piston and oil seal parts that the worlds team drivers tested during the race. They are made by a high Precision Plastic mold machine.

Also included are specially made durable material parts for the suspension like inserts which our team drivers used and felt immediately more confident.

The center chassis lay out is the brand new design for S35-4e EVO. Its provides 2 ways battery set up. Standard 2S peck batteries (or 2S shorty) can be used in saddle position for lower center of gravity. And one unit 4S standard peck(or shorty) also can be fit in side position.

There many more small changes and smart ideas in your new SWORKz S35-4e EVO, it's the evolution result which works by whole team that make the car being a real winner.

The secret of a modern racing car is the possibility to adapt the setup to every track for top pilots but also have a standard setup that works on most tracks for hobby pilots. And your SWORKz S35-4e EVO is having these two characteristics in perfection.

Congratulations on your purchase of the new SWORKz S35-4e EVO 1/8 scale off-road racing buggy pro kit and thanks for trusting in SWORKz.

Please read this manual carefully, before you start to build and drive your SWORKz S35-4e EVO. This manual contains step-by-step instructions to helping you completing, preparing and fine tuning your buggy for racing. Updates, setups, and product news will be posted on all SWORKz digital media.

As always, if you should ever have any questions or need help with your SWORKz products, please feel free to contact our official SWORKz dealers and distributors.
