SWORKz S35-T2e INSTRUCTION MANUAL

S35-T2e

1/8 OffRoad Brushless Power Pro Truggy

INSTRUCTION

The SWORKz S35-T2e 1/8 Electric Truggy is designed for pure racing. The geometry of the car provides great corner speed with exceptional traction and easy driving control.

The S35-T2e features a T7075 hard anodized and lightened aluminum wide layout chassis that was tested by our factory pilots to guarantee best performance.

The newly developed Truggy HET differentials are included and provide traction that was not possible before.

The new S35-T2e comes with a longer shock layout in the front and rear. The construction of the shocks is adapted to that new optimized layout. The smart holder for shock spring plates makes it almost impossible to lose them anymore.

The steering geometry, with new Ackerman and steering plates, gives the driver a feeling of total control over the SWORKz S35-T2e.

With the new toe-in plates, which now contain square inserts, you can adjust the geometry of your SWORKz S35-T2e to fit every track layout and track condition. The lower arms are made of a newly developed composite material and fit perfectly to the new chassis. Side guards were redesigned as well.

With the new lightened wing support you can adjust various positions and the angle of the wing to give your SWORKz S35-T2e the best stability on the track. Together with the "Speed Rhinoceros III" body shell, perfect aerodynamics is achieved.

Another new development in our SWORKz S35-T2e is the totally new rear hub. Made from composite materials combined with 2 carbon plates gives you the possibility for various setups.

The new designed Motor mount makes it possible to change the motor or adjust the play of the gears very easily.

There are many changes and smart ideas put into your new SWORKz S35-T2e that makes the car a real winner.

The secret of a modern racing car is the possibility to adapt the setup to every track for top pilots but also have a standard setup that works on most tracks for hobby pilots.

The SWORKz S35-T2e represents these two characteristics in perfection.

The SWORKz development team focused on using materials corresponding to the highest quality standards when designing the car. You will find only 100% SWORKz quality in the S35-T2e kit.

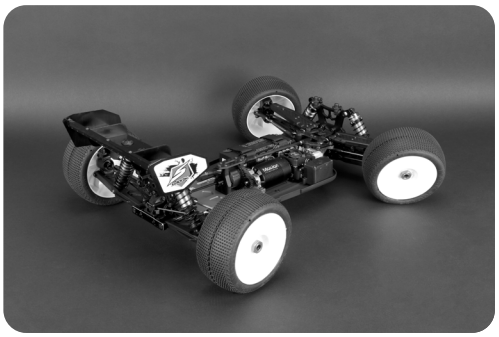

Congratulations on your purchase of the new SWORKz S35-T2e 1/8 scale off-road racing Truggy pro kit and thanks for trusting in SWORKz.

Please read this manual carefully, before you start to build and drive your SWORKz S35-T2e. This manual contains step-by-step instructions to helping you completing, preparing and fine tuning your Truggy for racing. Updates, setups, and product news will be posted on all SWORKz digital media.

As always, if you should ever have any questions or need help with your SWORKz products, please feel free to contact our official SWORKz dealers and distributors.
